

A Puzzle Challenge Day has been organised for your child on Wednesday 2nd November. It will be a beneficial, memorable and fun day where they will experience a range of hands-on mathematical and thinking skills puzzles. It will also be free.

Taking part in the Puzzle Challenge Day programme will help to develop your child's:

- ❖ Thinking Skills
- ❖ Communication Skills
- ❖ Team Skills
- ❖ Abilities to overcome difficulties with school work

Parent Workshop

Wednesday 2nd November 2011

3.30 – 5.00

You are invited to encounter a variety of fun, 3D hands-on puzzle tasks, which your child had to complete in teams that day. Most challenges last for no more than a few minutes, but required each team to work together and carefully develop strategies in order to find a solution. If the temptation to give up starts to appear, the programme taught the children how to persevere, put their own skills to better use as part of a team and overcome difficulties by approaching problems from different perspectives.

Come with your children (no age limit) and find out what they have been doing that day. Get them to show you the puzzles they have solved earlier.

Everyone is welcome

Teaching staff will be available and you will have an opportunity to see our new Maths Games Lending Library

There will also be a chance to buy some of the puzzles if you want. There is no obligation to buy. This experience has been planned as educational not to fund raise.

Put this date and time in your diaries and we look forward to seeing you. Usually these workshops would cost you to attend but we have managed to offer it to you for free.

Refreshments will be provided.
