

Safer Internet Week: Gaming

To support you with your children playing electronic games we have provided some links to help:

We are also aware that many children are currently playing an online game called Fortnite. To help you as parents understand this game and how to keep your children safe we have provided a brief description of the game and an informative link to a parent guide. It has been classified as appropriate age rated 12+.

In short, it's a mass online brawl where 100 players leap out of a flying bus on to a small island and then fight each other until only one is left. Hidden around the island are weapons and items, including rifles, traps and grenade launchers, and players must arm themselves while exploring the landscape and buildings. It's also possible to collect resources that allow you to build structures where you can hide or defend yourself. As the match progresses, the playable area of land is continually reduced, so participants are forced closer and closer together. The last survivor is the winner.
