By the end of our project we will know that

	<p>Different religions use prayer in similar ways to communicate and listen. Worshippers may use objects, song or art to enhance prayer and express their devotions .Places to pray - multi-faith prayer rooms – are often available in public places e.g. schools, hospitals and airports. They are available to those who need places to pray, meditate or reflect. Buddhists use meditation and mindfulness as important aspects of their faith. Faiths have different spiritual leaders. Both Christianity and Buddhism have leaders that worshippers look to in order to be able to understand the teachings of the Buddha or Jesus, respectively and provide guidance in the modern world. Christians believe that Jesus provides guidance about temptation. In the approach to Easter, Christians consider this during Lent.</p>
