Year 2 programme of study (statutory requirements)

Number and place value	Addition and subtraction	Multiplication and division	Fractions	Measurement	Geometry: properties of	Geometry: position and	Statistics
-			Precisions Pupils should be taught to: • recognise, find, name and write fractions $1/_3$, $1/_4$, $2/_4$ and $3/_4$ of a length, shape, set of objects or quantity • write simple fractions for example, $1/_2$ of 6 = 3 and recognise the equivalence of $2/_4$ and $1/_2$.	 Pupils should be taught to: choose and use appropriate standard units to estimate and measure length/height in any direction (m/cm); mass (kg/g); temperature (°C); capacity (litres/ml) to the nearest appropriate unit, using rulers, scales, thermometers and measuring vessels compare and order lengths, mass, volume/capacity and record the results using >, < and = recognise and use symbols for pounds (£) and pence (p); combine amounts to make a particular value find different combinations of coins that equal the same amounts of money solve simple problems in a practical context involving addition and subtraction of money of the same unit, including giving change compare and sequence intervals of time tell and write the time to five minutes, including quarter past/to the hour and draw the hands on a clock face to show these times. know the number of minutes in an hour and the number of hours in a day 		-	 Pupils should be taught to: interpret and construct sin pictograms, i charts, block diagrams an simple tables ask and answ simple questions by counting the number of objects in ea categories bi quantity ask and answ questions ab totalling and comparing categorical distributed by totalling and comparing categorical distributed by the second by
